ABHIJITH PR

Fullstack Developer & Distributed Systems Engineer

Email: abhijithpr366@gmail.com | Location: Remote / Global | Portfolio: Live

PROFESSIONAL SUMMARY

Fullstack developer with 4+ years of experience engineering high-performance web systems, distributed microservices, responsive UI architectures, and real-time interactive applications.

CORE TECHNICAL SKILLS

Frontend: React, TypeScript, Next.js, Three.js, TailwindCSS, State Management
Backend: Go, Node.js, Python, PostgreSQL, Redis, GraphQL, REST APIs, Kafka
Cloud & DevOps: Docker, Kubernetes, CI/CD, AWS, System Architecture, Microservices

KEY HIGHLIGHTS & ARCHITECTURE

- Architected 24+ production microservices with 99.99% uptime and low-latency throughput.
- Engineered real-time reactive web applications handling peak concurrency up to 85K QPS.
- Built interactive 3D WebGL experiences and highly responsive responsive client UIs.

AVAILABILITY

Available for Fullstack Engineering Roles & High-Impact Freelance Projects.
